

William Truman (Bill) Wayne for 121st District

431 SE County Road Y
Warrensburg, MO – 64093
660-624-4944 / liberty@olddrum.net

Legislative priorities:

1. Protect property rights by meaningful reform of eminent domain, tax increment financing, transportation development districts, and other such programs.
2. Make government more open by reforming the Sunshine Law to ensure the people know what is going on with ALL governmental bodies, including regulatory agencies.
3. Reduce government intrusiveness into private matters by reducing the size of government and eliminating intrusive agencies such as the IRS.

Why small business owners should support me:

1. I have operated a small business (bed and breakfast) for 18 years; while not subject to a great deal of regulation myself, through my activities in the state B&B association I am well aware of the impact of government on my industry. That makes me very sympathetic to changing laws to make the regulatory climate more favorable.
2. I support the Fair Tax, which would eliminate the onerous and intrusive requirements of the type of record keeping required to meet the IRS's virtually-incomprehensible rules. It would also create a tremendous boost to the economy.
3. As a Libertarian, I strongly favor the free market. I want to reform tax incentives so local entrepreneurs aren't disadvantaged by benefits granted to large corporate entities.
4. Despite the difficulties inherent for a third party candidate facing an incumbent, I intend to run a serious, if frugal, campaign. I am well known in the community because of previous issue-based newspaper commentaries and activities.
