Missouri Primary Election 2010 School Choice Candidate Questionnaire

(check box)

Yes No

Do you support the fundamental right of parents to choose the kind of education that their own children receive?

If Yes, do you support educational reform legislation to allow parents to spend their fair share of tax dollars collected for education at the schools of their choice in the form of scholarships, whether for public or private school enrollment? *

Do you support legislation to authorize a tax deduction or tax credit on donations to private scholarship foundations? *I support the FAIR TAX,*

which would alleviate the "tax deduction" systems.
(*A good model for the parents' school choice plan for elementary and secondary education is the GI bill, which offered veterans the opportunity for college and vocational studies; the bill did not discriminate against the choice of a religious educational institution; nor were there restrictions or regulations interfering with the freedom of the schools chosen.)
